

International Tug & Salvage

May/June 2010

Interview p30
Robert Underhill: *"There are so few people left in the world that have a knowledge of rope; it's one of the skills that are dying."*

Front cover: The **BRAtt** (Burchett-Robert Allan training tug) made its debut at the ITS 2010 Convention in Vancouver. When delegates saw it go bow to bow with the 30m **Seaspan Resolution** and push it backwards, 101 other uses were instantly devised for the 7.8m by 4.32m aluminium mini-ASD in addition to the original concept: of providing real water training to aspiring assist and docking tug masters without taking an expensive full-size ASD tug off the job. Full details, page 19. Photo: John Harington.
